

A small, olive-green bird with a dark eye and a thin beak is perched on a brown branch. To its right is a large, round, orange-red persimmon fruit. The background is a soft, out-of-focus blue-grey color. The bird is facing right, and the persimmon is also oriented towards the right. The branch is thick and textured, with several thinner, bare branches extending from it.

柿の枝にとまるウグイス

A small green bird, likely a Japanese Green Warbler (ウグイス), is perched on a dark brown branch. It is facing left, pecking at a large, bright red persimmon fruit that has been partially eaten, revealing its yellow-orange flesh. The bird's plumage is a vibrant green with some darker streaks on its wings. The background is a soft, out-of-focus green, suggesting a natural outdoor setting. The lighting is bright, highlighting the textures of the bird's feathers and the fruit.

柿の実を食べるウグイス

A small, greenish-brown bird with a yellow beak is perched on a dark brown branch. To its left is a large, bright red pomegranate that has been broken open, revealing its yellowish-red seeds. The background is a soft, out-of-focus green and yellow, suggesting a natural outdoor setting. The bird is looking towards the pomegranate.
